Education

McMaster University

Bachelor of Technology, Software Engineering Technology

Hamilton, ON

Sept 2023 – Dec 2025

Seneca Polytechnic

Advanced Diploma, Computer Engineering Technology, Honors

Toronto, ON

Jan 2018 – Apr 2020

Certifications

AZ-104 Microsoft Certified Azure Administrator Associate, ITIL 4 Foundation, CompTIA Network+, CompTIA A+, CS50x

Professional Experience

NVTech (New Vision Technologies)

IT Support Specialist

Toronto, ON

Oct 2025 – Present

- Managed IT operations for 9 client organizations (~425 users) spanning property management, retail, non-profit, manufacturing, and logistics; maintained 99% SLA compliance while resolving 40+ weekly IT tickets and overseeing M365, endpoint management, identity, security, and on-site infrastructure.
- Administered multi-tenant M365 environments: mailbox configuration, email delegation, Teams Phone governance, SharePoint permissions, license management, Entra ID, Conditional Access/MFA enforcement, and email security (SPF, DKIM, anti-spoofing, Defender for Office 365, SpamHero, and Barracuda).
- Deployed and supported Sophos Firewalls, UniFi and Cisco switches, wireless APs; diagnosed and resolved network connectivity and hardware issues with zero repeat escalations.
- Executed Windows 11 migration and Sophos Firewall deployment projects across clients on schedule with no production downtime.

S&C Electric Company

Junior System Administrator

Toronto, ON

May 2025 – Aug 2025

- Packaged and deployed 7 enterprise Win32 applications to Intune Company Portal using PowerShell and Win32 Content Prep Tool; developed custom detection, installation, and remediation scripts that reduced manual deployment effort by 40%.
- Designed and implemented Microsoft Universal Print infrastructure in Azure: registered cloud-native printers, deployed connectors for legacy devices, and authored Microsoft Graph API scripts to automate device group membership and ownership queries.
- Streamlined identity infrastructure by decommissioning on-prem mail security groups via AD Connect sync to Entra ID; participated in AD to Exchange Online migration; enforced least-privilege access via Delinea.
- Authored 10+ technical SOPs covering Intune application deployment, Microsoft Graph automation, Universal Print, Exchange administration, and identity management, improving operational consistency and knowledge transfer.

S&C Electric Company

Desktop Support Analyst

Toronto, ON

Sept 2024 – Apr 2025

- Resolved 400+ Tier 1/2 support incidents for 200+ enterprise users with 99% CSAT; performed user onboarding/offboarding, Active Directory account administration, Windows Autopilot deployments, Microsoft 365 provisioning, and endpoint hardware deployment.
- Authored installation and recovery procedures for 5 production-critical workstations linked to specialized manufacturing equipment including engraving machines, warehouse management systems, and shopfloor testers.

CompuCom Systems Inc.

IT Field Service Technician

Mississauga, ON

May 2023 – Sept 2023

- Repaired on-site hardware for retail and hospitality clients including 7-Eleven, Tim Hortons, and Shell Canada; executed BMO bank branch migration projects including workstation deployment, network hardware setup, and go-live validation.

Advanced Skytech Ltd.

Computer Repair Technician

Toronto, ON

Sept 2020 – May 2023

- Supervised desktop repair production team fulfilling bulk orders for Best Buy, Canada Computers, and Amazon achieving 99% resolution rating; coordinated technician assignments during peak seasons including Prime Day and Black Friday.
