

Harry Pham

IT Support Specialist · Windows Server & Azure · SQL Server · Exchange Online · PowerShell

Toronto, ON | 647-289-8605 | harry.pham11@outlook.com | [harryphamit.github.io](https://github.com/harryphamit) | linkedin.com/in/harryphamca

PROFESSIONAL SUMMARY

IT Support Specialist with hands-on experience across Microsoft Windows Server, Azure, Exchange Online, and hybrid Active Directory environments, supported by strong PowerShell automation and multi-client infrastructure operations. Experienced in designing, implementing, and maintaining server, identity, and network infrastructure while automating administrative workflows to maximize system reliability and operational efficiency. Holds AZ-104 (Azure Administrator Associate) and MD-102 (Microsoft 365 Endpoint Administrator).

TECHNICAL SKILLS

Infrastructure & Server: Windows Server, Active Directory DS, Group Policy, DNS, DHCP, NTFS/share permissions, file services, Hyper-V, server monitoring and performance tuning

Cloud & Azure: Microsoft Azure, Entra ID (Azure AD), hybrid AD Connect, Conditional Access, MFA, Azure resource management and monitoring

Database: Microsoft SQL Server installation, configuration, user and permission management, backup and restore operations

Exchange & M365: Exchange Online (mailbox management, mail flow configuration, mail trace, routing troubleshooting), Microsoft 365 (Teams, SharePoint, OneDrive), Intune (MDM/MAM, Win32 app deployment, Autopilot, compliance policies)

Networking: TCP/IP, DNS, DHCP, VPN, LAN/Wi-Fi, Sophos Firewall (UTM and appliance), UniFi (switches, APs), Cisco switches, firewall rule management, DHCP scope configuration

Scripting & Automation: PowerShell infrastructure automation, Exchange Online administration, Microsoft Graph API, app deployment scripts, onboarding/offboarding workflows, system reporting

ITSM & Support Tools: ServiceNow, Jira Service Management, ManageEngine, Freshworks, Syncro RMM, ScreenConnect, LogMeIn, TeamViewer

PROFESSIONAL EXPERIENCE

IT Support Specialist - MSP Environment

NVTech - New Vision Technologies

Toronto, ON | Oct 2025 - Present

- Maintain and support Windows environments, network infrastructure, firewall configurations, identity systems, and application stability across 9 client organizations (~425 users); triage incidents by business impact and maintain 99% SLA compliance across 50+ weekly tickets.
- Administer Exchange Online environments across all tenants - manage mailboxes, mail flow rules, email routing configuration, mail trace analysis, and phishing remediation using PowerShell, Defender for Office 365, SpamHero, and Barracuda.
- Execute infrastructure projects including Sophos UTM-to-appliance firewall migrations (firewall rule recreation, DHCP scope reconfiguration, VPN rebuild), Windows 11 upgrade deployments, and standardized network hardware installations across client sites; all delivered with zero production downtime.
- Develop and maintain PowerShell scripts to automate printer deployment, network printer configuration, mailbox and calendar delegation, onboarding workflows, and administrative reporting - improving consistency and reducing manual effort across all environments.

Junior Systems Administrator & Desktop Support Analyst

S&C Electric Company

Toronto, ON | Sept 2024 - Aug 2025

Progressed from Desktop Support Analyst into Junior Systems Administrator within a continuous 1-year enterprise co-op.

- Engineered Intune Win32 deployment packages for 5 enterprise applications by authoring 12 PowerShell install, uninstall, and configuration scripts totaling 1,500+ lines; automated software deployment and eliminated manual installation dependency, reducing deployment effort by 40%.
- Administered hybrid identity infrastructure across Entra ID, on-premises Active Directory, Exchange Online, and AD Connect; supported 50+ security group migrations and maintained access continuity across cloud and on-premises environments during cloud migration.
- Resolved 600+ user incidents across international S&C locations (Canada, US, Mexico, England, Australia) supporting executives, engineers, and shopfloor users; managed full onboarding/offboarding lifecycle including Autopilot provisioning, MFA setup, device collection, and account decommissioning.
- Supported privileged access management workflows using Delinea Privilege Manager; authored 8 standard work documents for production-critical manufacturing systems including Vista, Modula WMS, Motherboard Burn-In, and GravoStyle - improving rebuild repeatability and reducing recovery time.

IT Field Service Technician

CompuCom Systems Inc.

Mississauga, ON | May 2023 - Sept 2023

- Deployed workstations, switches, and network hardware for BMO branch migrations and new-branch openings; validated IP configuration, domain access, connectivity, and print services at go-live cutovers.
- Delivered on-site hardware repair and support for 7-Eleven, Tim Hortons, Canada Post, and Shell Canada - replacing and troubleshooting laptops, switches, POS systems, and printers while completing imaging and connectivity validation.

Computer Repair Technician

Advanced Skytech Ltd.

Markham, ON | Sept 2020 - May 2023

- Led a 5-technician repair team through peak-season surges (Cyber Monday, Prime Day), coordinating workflow and maintaining throughput and quality-control standards across high-volume desktop repair fulfillment for Best Buy, Canada Computers, and Amazon.

TECHNICAL PROJECTS

Home Lab: Hyper-V, Windows Server, SQL Server & Hybrid Entra ID Infrastructure

Personal Lab Environment

- Built a multi-VM lab environment on Hyper-V with virtual switches, checkpoints, and allocated compute and storage across domain controller, SQL Server, and client workstation VMs; configured Windows Server with Active Directory Domain Services, DNS, and DHCP, including OU structure, security groups, and Group Policy Objects to enforce security baselines and software restrictions.
- Installed and administered Microsoft SQL Server - configured server instances and service accounts, created and managed databases, assigned login accounts and role-based permissions, scheduled full and differential backup jobs via SQL Server Agent, and performed restore operations under simulated failure scenarios.
- Implemented Entra ID hybrid join using Azure AD Connect - synchronized on-premises AD objects to Entra ID, configured device registration policies, validated seamless SSO, and enforced Conditional Access requiring compliant devices; verified end-to-end identity flow from on-premises authentication through to Microsoft 365 access.

EDUCATION

Bachelor of Technology, Software Engineering Technology

Dec 2025

McMaster University, Hamilton, ON

Advanced Diploma, Computer Engineering Technology (Honours)

Apr 2020

Seneca Polytechnic, Toronto, ON

CERTIFICATIONS

Microsoft 365 Certified: Endpoint Administrator Associate (MD-102)	<i>Microsoft, August 2026</i>
Microsoft Certified: Azure Administrator Associate (AZ-104)	<i>Microsoft, May 2026</i>
